On behalf of the Organizing Committee, we are delighted to invite you to attend the 5th International Symposium on Phytochemicals in Medicine and Food (5-ISPMF) to be held in Nanchang University, Nanchang, China on August 25-30, 2021. 5-ISPMF is organized by the Phytochemical Society of Europe (PSE), the International Association of Dietetic Nutrition and Safety (IADNS) and the Phytochemical Society of Asia (PSA). We very much look forward to welcoming you at Nanchang University which resides in Nanchang. Nanchang is the capital of Jiangxi Province, China and a famous historical and cultural city with a history of over 2,200 years. It has been described as “a given land abundant in natural resources and outstanding in producing talented figures”. Nanchang is a scenic and environmentally friendly city with beautiful mountains, rivers and lakes. The Gan River passes through the city from south to north, and the whole city is dotted with rivers and lakes. At the outskirts of the city you can see green mountains. The Symposium aims to explore the recent advances in the area of phytochemicals in medicine and food. We hope to bring together scientists of all ages to provide an excellent platform for exchanging ideas, discussing challenges, sharing success stories and setting up new research collaborations. Your active participation will certainly make 5-ISPMF symposium a great success. Welcome to beautiful Nanchang!

Awards

Ten awards will be given for best oral and poster presentations by young scientists (Under 35 years old) (5 awards for poster and 5 awards for oral presentation).

Sponsor Journals:

1. **Food Chemistry** is publishing a special issue for 4-ISPMPF.

When you submit your manuscript, please choose “5-ISPMPF” as article type.

2. **Food & Function** is publishing a special issue, please choose theme collection “the effect of food matrix and processing on the physiological fate of bioactive compounds and metabolites”. (Guest editor, Prof. Jesús Simal-Gándara),

Call for Abstracts

Due to COVID-19, we will have both onsite and online meeting for 5-ISPMPF. It is free registered for all the attendees.

Oral and poster presentations on the mentioned topics are welcome. All participants are invited to submit abstracts which will be published in a conference proceeding. All abstracts will be reviewed by the scientific committees and the decision on the way of contribution will be announced no later than 2 weeks after the abstract submission deadline. Registration is mandatory for acceptance.

Abstract submission for oral presentation deadline 15th July, 2021

Abstract submission for poster presentation deadline 30th July, 2021

Abstract preparation guidelines

Please send the file via e-mail to lingjun.ma@cau.edu.cn (Dr. Lingjun Ma) and cc to Dr. Lei Chen (chenlei841114@hotmail.com).

Word is the main software we will use, but if this is unavailable, please provide a compatible file of your paper (compatible for Word 97 and following versions). The abstract should contain the aim of the work, the applied methods, the main results and a conclusion. Statistical evaluation for pharmacological and clinical data is obligatory.

The abstract must be written in English and the standard font should be Times New Roman 12 pt except for the title (16 pt), affiliations (10 pt, italic) and references (10 pt). The name of the author presenting the contribution must be underlined. A standard length of one page is obligatory. Figures (of good quality) and Tables must be included in the text.

The page size is A4 and the following margins should be used: left 2.5 cm, right 2.5 cm, top page 2.5 cm, bottom 2.5 cm. The text must be typed using single space with full justification, page numbers should be omitted.

References must be noted as numbers in square brackets [1] and continuously numbered in the text in the order in which they are cited. At the end of the abstract, the reference list should be given in the style presented below [2].

1. Torronen R, Kolehmainen M, Sarkkinen E, et al. Am J Clin Nutr, 2012, 96, 527-533

2. Mane C, Loonis M, Juhel C, Dufour C, et al. J Agric Food Chem, 2011, 59, 3330-3339.
